ACT Community Task Challenge

In this challenge, you work to serve others within the Jenison and surrounding West Michigan communities! One of our Core Values, **Honor Strengths & Gifts** states: **Care and serve the world that needs you. Everyone is someone with something to give. Serve your purpose joyfully. Help others do the same.** With that in mind, to complete this challenge, I am asking you to choose some type of service project to complete each semester. This could be something you do regularly (such as knitting hats for babies at DeVos Children's Hospital) or a one-time project (such as helping out at a homeless shelter in Grand Rapids or heading to a local nursing home to give of your time). To earn a spot on our Challenge Board, I am asking that you not only tell me about the service projects you complete (with a parent signature indicating the service project was completed), but to also write a reaction to the time spent there. What did you do? What kinds of people did you meet? Did helping and serving others have any impact on your life? Did you learn anything? Feel free to write about your experiences in your own way, as well! Enjoy your time serving others!

What was your overall reaction to serving other people in the community? Is there another service idea you have for the future? Did this help you to learn anything about yourself? Do you have any other comments about this challenge, in general?
