

## A Bonus Challenge!

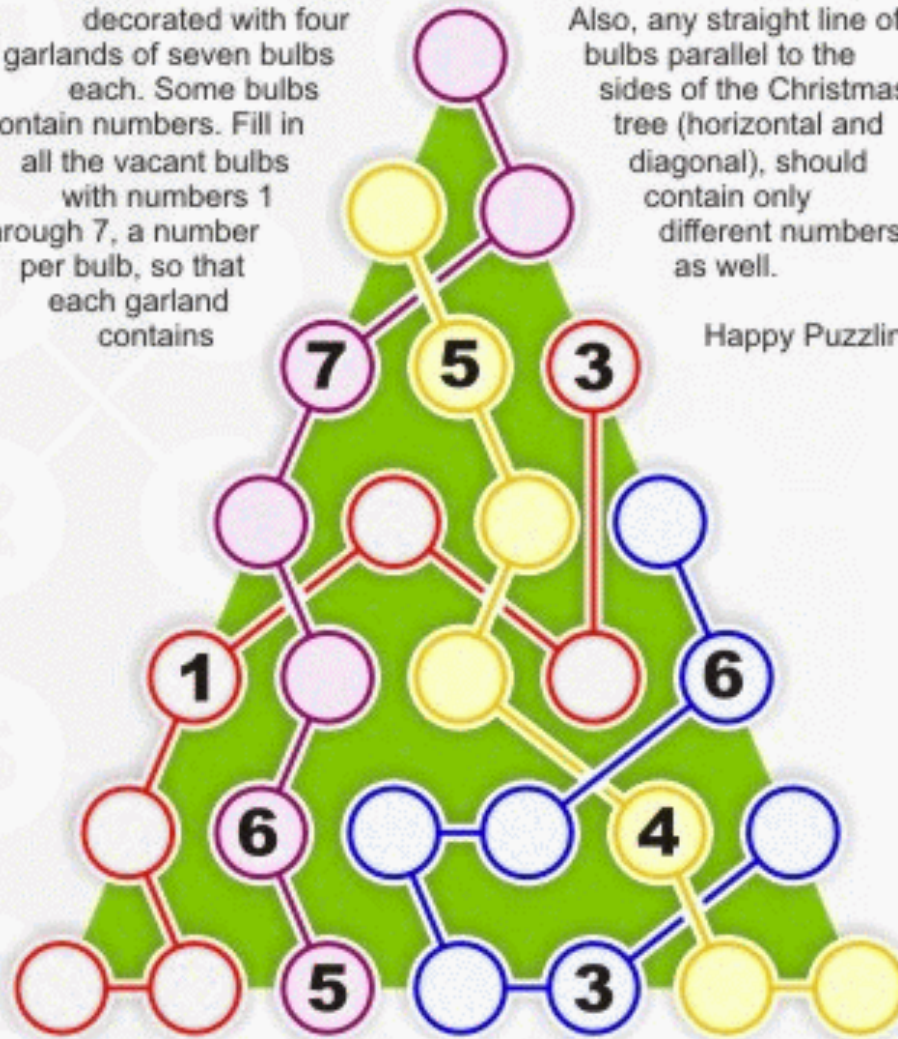

# CHRISTMAS-TREE STRIMKO

by The Grabarchuk Family

The Christmas-tree is decorated with four garlands of seven bulbs each. Some bulbs contain numbers. Fill in all the vacant bulbs with numbers 1 through 7, a number per bulb, so that each garland contains

seven different numbers. Also, any straight line of bulbs parallel to the sides of the Christmas-tree (horizontal and diagonal), should contain only different numbers as well.

Happy Puzzling!
